Домашняя работа по операционным системам и средам

Тема:

Практика по простым командам

Студент: Царёв Сергей Александрович

Группа: 11/1-РПО-26/1

Руководитель: Штейнберг Эмиль Эдуардович

Задание 1. Создание каталога work, переход в него и вывод текущего каталога

```
root@teacher-debian:~# cd ~
root@teacher-debian:~# mkdir work
root@teacher-debian:~# cd work
root@teacher-debian:~/work# pwd
/root/work
```

Задание 2. Создаем пустой файл командой touch file.txt

Задание 3. Через vim добавляем в файл данные после чего через cat смотрим что он заполнен

Задание 4. Переименовывыем файл в book при помощи mv file.txt book.txt

Задание 5. Прочитаем файл при помощи cat

```
root@teacher-debian:~/work# cat file.txt
   Mr and Mrs Dursley, of number four, Privet Drive, were proud to say that they were perfectly normal,
thank you very much. They were the last people you'd expect to be involved in anything strange or mysterios,
because they just didn't hold with such nonsense.

   Mr Dursley was the director of a firm called Grunning, which made drills. He was a big,
beefy man with hardly any neck, although he have a very large moustache.
Mrs Dursley was thin and blonde and had nearly twice the usual amount of neck,
which came in very useful as she spent so much of her time craning over garden fences, spying on the neighbours.
The Dursleys ahad a small son called Dudley and in their opinion there was no finer boy anywhere.
```

Задание 6. ищем предложения с was в тексте

```
root@teacher-debian:~/work# grep -w 'was' book.txt > was.txt
root@teacher-debian:~/work# cat was.txt
   Mr Dursley was the director of a firm called Grunning, which made drills. He was a big,
Mrs Dursley was thin and blonde and had nearly twice the usual amount of neck,
The Dursleys ahad a small son called Dudley and in their opinion there was no finer boy anywhere.
```

-w ищет именно слово was, не давая искать слова где was это лишь часть

Вывод:

Файл book.txt создан в каталоге /root/work и заполнен предложениями из двух абзацев, каждое с новой строки; затем он переименован и проверен через cat. Командой grep -w 'was' book.txt > was.txt найдены все предложения со словом was, а объединённый файл combined.txt использован для подсчёта букв n через grep -o 'n' | wc -l. Таким образом, все задания выполнены последовательно с использованием простых команд Bash и потоков.
